

Freshservice Proof of Concept (POC) Summary Report

Client: Tatum Bank

Solution: Freshservice IT Service Management (ITSM)

Report Type: Proof of Concept (POC) Summary Report

Status: Successfully Completed

1. POC Overview

The Freshservice Proof of Concept (POC) was successfully completed to evaluate Freshservice as a potential IT Service Management (ITSM) solution for Tatum Bank.

During the POC, the Freshworks team conducted a series of product demonstrations, configuration walkthroughs, and knowledge transfer sessions to showcase the platform's core capabilities. The sessions focused on enabling the Tatum Bank project team to understand how Freshservice can support service desk operations, automate IT processes, improve service delivery, and provide actionable operational insights.

2. POC Objectives

Objective	Status
Evaluate Freshservice as an ITSM solution	✓ Completed
Demonstrate core ITSM capabilities	✓ Completed
Validate Service Desk processes	✓ Completed
Demonstrate workflow automation	✓ Completed
Demonstrate Asset Discovery capabilities	✓ Completed
Review reporting and analytics	✓ Completed
Conduct administrator and agent knowledge transfer	✓ Completed
Address business questions and implementation scenarios	✓ Completed

3. Scope of Demonstration

Area	Topics Covered	Status
Platform Overview	Freshservice architecture, navigation and platform capabilities	✓
User Management	Administrator, Agent and Requester roles	✓
Support Portal	Employee self-service portal	✓
Agent Workspace	Ticket handling and service desk operations	✓
Incident Management	Incident creation, assignment and resolution	✓
Service Request Management	Service catalog and request fulfilment	✓
Workflow Automation	Workflow Automator and Business Rules	✓
Approval Workflows	Request approval processes	✓
Knowledge Base	Self-service articles and documentation	✓
Asset Discovery	Discovery capabilities overview	✓
Reporting & Analytics	Dashboards, KPIs and reports	✓

4. Knowledge Transfer Sessions Conducted

Session	Coverage	Outcome
Session 1 – Platform Overview & User Onboarding	Platform overview, environment setup, administrator onboarding, agent onboarding, user roles, support portal introduction and navigation.	Participants gained an understanding of the Freshservice platform architecture, user roles and overall navigation.
Session 2 – Service Desk Operations & Request Management	Support Portal, Agent Portal, Incident Management, Ticket Lifecycle, Service Request Management, Service Catalog, Ticket Categorization, Prioritization, Assignment, SLA Management and Knowledge Base.	Demonstrated the complete service desk process from ticket creation through assignment, resolution and closure.
Session 3 – Automation, Asset Management & Reporting	Workflow Automator, Business Rules, Approval Workflows, Asset Discovery, Dashboards, Reporting and Analytics.	Demonstrated automation capabilities, asset discovery features and reporting tools for operational visibility.

Session	Coverage	Outcome
Session 4 – Solution Review & Knowledge Transfer	Business use cases, implementation discussions, questions and answers, configuration guidance and best practices.	Addressed stakeholder questions and provided implementation guidance to support successful platform adoption.

5. Key Features Demonstrated

Feature	Description	Status
Employee Self-Service Portal	Employees submit incidents and service requests	✓
Agent Workspace	Manage and resolve tickets efficiently	✓
Incident Management	End-to-end incident lifecycle	✓
Service Request Management	Service catalog and fulfilment	✓
Ticket Assignment & Prioritization	Intelligent ticket routing and prioritization	✓
Workflow Automation	Automated workflows and business rules	✓
Approval Workflows	Configurable approval processes	✓
Knowledge Base	Self-service support documentation	✓
Asset Discovery	Discovery of IT assets	✓
SLA Management	Service level monitoring	✓
Dashboards & Analytics	Operational reporting and performance metrics	✓

6. POC Outcome

Area Evaluated	Result
Platform Functionality	Successfully demonstrated
Service Desk Operations	Successfully validated
Incident Management	Successfully demonstrated
Service Request Management	Successfully demonstrated
Workflow Automation	Successfully demonstrated
Asset Discovery	Successfully demonstrated

Area Evaluated	Result
Reporting & Analytics	Successfully demonstrated
Knowledge Transfer	Successfully completed
Stakeholder Engagement	Successfully completed

7. Summary

The Freshservice Proof of Concept was successfully completed and achieved its intended objectives. The demonstrations and knowledge transfer sessions provided the Tatum Bank team with a comprehensive understanding of the platform's capabilities, including service desk operations, workflow automation, service request management, reporting, and asset discovery.

The engagement enabled stakeholders to evaluate Freshservice against the Bank's operational requirements and provided practical insights into how the platform can support efficient IT service delivery.

The Freshworks team appreciates the opportunity to conduct the Proof of Concept and looks forward to supporting Tatum Bank in the next phase of its IT Service Management journey.
